

This Father's Day, we invite you to give something back: Respect.

Respect needs to be passed around. From father to son. From neighbor to neighbor. And from men to women and children. Considering one in three women will be physically or sexually abused in her lifetime, we need respect to be given now more than ever.

Stand with us.

We call ourselves “founding fathers” because we intend for this crucial beginning to give way to a new kind of society—where decency and respect require no special day on the calendar, where boys are taught that violence does not equal strength and where men stand with courage, lead with conviction and speak with one voice to say, “No more.”
